

COCHRANE QUICK START

Here are the first four practical things you need to know before you move to Cochrane.

1. Utility Account

Your Town of Cochrane Utility invoice includes amounts for water consumption, sewer consumption, Eco Centre fee, waste, recycling and organics collection and storm sewer fee.

If you're new to town, you'll need to set up a new account. If you're moving from another location in Cochrane, you must change your existing account. Once your account is set up, we'll deliver a waste, recycling and organics cart (new accounts) and make sure water service is turned on when you move in.

Invoices are emailed at the beginning of each month. Payment instructions are on the back of your invoice or sign up for pre-authorized payments (PAP) and never miss a payment deadline!
