Construction Update: Centre Ave. & First St. Intersection Closure

Summer construction is in full swing, with crews working on a number of roadway and underground infrastructure projects throughout our community.

As the Centre Avenue improvements are made, upgrades to the storm system in East Cochrane will be taking place. To complete this work, within the next couple of weeks, the Centre Ave. and First St. intersection will be closed for approximately four weeks.

Learn more about current projects and plan your routes: Cochrane.ca/construction

Shop Cochrane: Open During Construction

Detours are in place to help you navigate through construction and continue to access your favourite local businesses.

Remember to allow for some extra time to travel these new routes safely.

Be Summer Safe: Tips to Beat the Heat

The heatwave is on, but we've got you covered with some sizzling tips to beat the scorching temps and stay safe this summer!

- stay hydrated and drink plenty of water
- ensure your little ones and furry friends stay safe by never leaving them in a hot car unattended
- take frequent breaks in cool, air-conditioned spaces to recharge
- consider using heat-free alternatives like salads or no-cook meals
- Keep an eye on local news and safety updates to stay ahead of any potential heat-related issues

Construction Update: HWY 1A/22 Interchange Roundabout

The first phase of the Alberta Transportation Highway 1A/22 Interchange roundabout is open. The second leg of the detour connecting the east side of Highway 1A to the roundabout is expected to be completed by Fall 2023. The overall detour will remain in effect until 2025.
