

Budget 2022-2024: Creating a complete community

Earlier this year, we asked Cochrane residents to help us determine where to focus your tax dollars, to ensure we are providing the level of service that you have come to know and expect.

We heard your priorities:

- Well maintained parks, pathways and green spaces
- Efficient roadways
- Available emergency services
- Abundant and affordable recreation opportunities

Creating a complete community means continuing to provide quality services today, saving for our future needs, and delivering on the projects that will support us both now and into the future.

Delivering on your priorities while maintaining services

We are all experiencing increased costs to heat our homes, fuel our vehicles, and participate in activities. The Town is also experiencing these increases as we heat our municipal facilities, fuel our mowers and snowplows, and purchase materials to support critical community projects.

This budget reflects the impact of these increased costs. It sets us on a path to continue to grow as a complete community, and positions us as one of the best places in Alberta to live, work and raise a family.

We are committed to ensuring that the services we provide are aligned with the needs of Cochrane residents and delivered in an effective, efficient, and financially sustainable way.

This budget protects our thriving future.
