

LOOK FAMILIAR?

Does your alley look like this:

- Yard waste and other debris?
- Old furniture destined for the landfill?
- Unregistered vehicles?
- Waste and recycling carts out after collection day?

In order to perform alley maintenance (like grading and gravel spreading), the Town of Cochrane needs access to the alleys from property line to property line (fence to fence). That means that old sofa, that fixer-upper and your waste and recycling carts have to be moved out of the alley. (Once your carts have been emptied on your collection day, it is up to you to ensure that your carts are returned to their storage location on your property.)

Help us maintain your alleys by keeping them clear of debris, furniture, parked cars, trailers and carts.

Violators may receive fines:

\$300/Occurrence - Nuisance and Unsightly Premises Bylaw (No. 04/2007)

\$50/Occurrence - Waste Management Bylaw (No. 09/2011)
