**Re: Request for continued additional school spaces for Cochrane's students**

**As a Cochrane resident, I'm reaching out with a concern that's been on my mind: the need for more school spaces.**

**Every year we welcome more than 300 new K-8 students to our schools – that's like filling up a whole new school every 2 to 3 years! While it's exciting to see our community grow, it's also putting a strain on our existing schools.**

**As a parent and member of this community, I believe that every child deserves a quality education in a safe and supportive environment. That's why I'm reaching out to you today.**

**We've seen some progress, like the expansion of Bow Valley High School and the inclusion of a K-8 school in the Provincial Capital Plan, but there's still more to do. To keep up with the growing needs, Rocky View Schools has highlighted the need for a new K-8 school and a new high school in Cochrane.**

**I'm hoping you can help us out by making sure we get the school spaces we need, so every child in Cochrane can have access to the educational resources they need to succeed.**

Thank you for your time and consideration.

Sincerely,

[Your Full Name]
