

COCHRANE GRANT APPLICATION GUIDE

A simple guide to creating an account, starting an application, and submitting it through the Cochrane grant application website.

WELCOME

Visit the Cochrane grant application website to learn about available grant programs, eligibility requirements, deadlines, and supporting documents.

From the welcome page, you can:

- Read about the available grant programs.
- Start a new application.
- Log in to an existing account.
- Access help, privacy, and legal information.

CREATE AN ACCOUNT

If you are applying for the first time, select “Create an account” or “Submit a new application.” Enter your contact details, create a password, and accept the applicable privacy and legal terms. Complete any security check, then submit the registration form.

CONFIRM YOUR EMAIL

After registering, check your email for a confirmation message. Select the confirmation link to verify your email address and activate your account. If you do not see the message, check your junk or spam folder.

LOG IN

Select “Login” and enter the email address and password associated with your account. Once logged in, you can start a new application, continue a saved draft, view submitted applications, check application status, and respond to requests for additional information.

START AN APPLICATION

Select "Submit an application," then choose the grant program or application form that best matches your project. Only currently available programs will be displayed.

Read each page carefully and provide the requested information. Questions marked with an asterisk (*) are required. You may also need to upload supporting documents, such as a project description, budget, or other files.

SAVE AND CONTINUE LATER

Your progress is saved automatically while you work. You can leave the application and return later by logging in and opening "Manage my applications." Select the relevant draft to continue.

REVIEW AND SUBMIT

Before submitting, check that:

- All required questions are complete.
- Your contact details are correct.
- The requested documents are attached.
- The information provided is accurate and up to date.

If information is missing, the platform will indicate which fields need attention. Once everything is complete, select "Submit" or "Validate and send." After submission, you may no longer be able to edit the application.

CONFIRMATION

After submitting, you will receive an automated confirmation email. Keep it for your records. You can also log in to view your application and follow its status.

Need help?

If you have questions about the application process or experience a technical issue, contact the Cochrane team using the contact details provided on the grant application website.
