Are you prepared for extreme heat?

Heat illness such as heat exhaustion, or more serious heatstroke, are preventable. Take action to stay cool, hydrated and informed throughout an extreme heat event. Stay safe in this heat wave by following the tips below:

- Dress appropriately and wear sunscreen
- Stay hydrated and avoid strenuous activities
- Never leave pets or children in a car
- Identify areas in your home that stay the coolest, what you can do to keep them cool, and how you can set it up for sleeping
- Prepare meals that don't need to be heated as using appliances will increase the indoor temperatures
- Check on your family and friends

Treating for weeds

Beginning mid-July Cochrane Parks and Open Spaces will be conducting herbicide applications for noxious and prohibited noxious weeds. Control of noxious and prohibited noxious weeds falls under the Alberta Weed Control Act.

For more information, questions or concerns please email parks@cochrane.ca

Your town. Your transit.

We're seeking diverse perspectives for our online focus group on public transit this August. Whether you've used transit before or have never hopped onboard, we want to hear from you! Express your interest by August 5.
