Water wisely

With the long weekend, you may be inspired to get outside, clean up your yard and prepare your lawn and garden for the season ahead. Cochrane's residential water use can rise by as much as 30% in the summer months, so when you turn on your outdoor taps, consider these tips on using less water outdoors.

- **Avoid watering during the hottest parts of the day**
Cochrane has Level one watering restrictions in effect year-round. Be sure you water before 10 a.m., or after 7 p.m.
- **Prepare your soil for the dry summer**
Soil conditions vary widely in Cochrane. Local soils often need help from mulch, compost, conditioners (manure, sand, perlite, etc.), or aeration to grow plants more effectively
- **Try naturescaping**
Conserve water through creative landscaping. Once established, a carefully and thoughtfully naturescaped area will be virtually maintenance free.
