FrancoSud School Site Search

Council called a special meeting ahead of the April 1, 2026 3-year Capital Plan submission deadline for Alberta School Boards, to discuss potential school sites for Conseil Scolaire FrancoSud.

In November 2023, FrancoSud identified an urgent need for a new secondary school due to overcrowding at École Notre Dame des Vallées, which currently serves K–12 students despite being designed as a K–8 facility.

After a comprehensive review of 15 properties that were identified as being suitable, Administration proposed that a 7.4 acre school site in the north-central portion of Southbow Landing be designated for FrancoSud.

Council endorsed that a letter of support be issued to FrancoSud and directed Administration to continue working with all impacted school boards to secure school sites when needed.
